

This is a letter of recommendation for College Works Painting.

Hi! My name is Kayce VanTuinen and I recently had my exterior painting work done by College Works Painting. I found them when they were painting my neighbors house and they were doing it extremely well.

They gave me an estimate and from that point on, I was impressed by the way they run their business. I had received several estimates and people trying to sell me a paint-job based on a figure on the back of a business card. I have had a few "bad" experiences with that sort of thing before, but College Works was different.

They began by taking the time to get to know me and what I wanted done to my house. Their estimate was AWESOME!!! They went through item by item what they were going to paint and also how they were going to prepare it! I was shocked by their thoroughness then, and I am extremely happy with the finished product now!

They were very good at keeping everything neat and clean, providing me with feedback every night, the painters were very kind and did great work, my yard was left looking better than when they got here and they even cleaned my windows!!! The manager was a huge help in picking out the right colors and making sure that everything was done right.

I was extremely surprised with the amount of time that went into just cleaning my house and getting it ready to be painted. Four years ago, I hired some fireman to do it, and it took him one day. CWP took 2 ½ days, but the quality of paint and the workmanship is guaranteed for 15 years and I am excited to not have to deal with painting for a long time!

I would recommend CWP for your exterior painting needs, and I have also volunteered to let you swing by and see the work they did or call me.

Thanks again!
